

1. What are 3 HTML elements not mentioned any of the video this week? What do they do and how are they used?

2. Choose one of your favorite websites and identify 5 different HTML elements used on the website. Make sure to include the URL in your submission. There was a link, several breaks, bold text, titles, and style part of the text.

3. What is your favorite thing you learned this week?

I enjoyed learning how websites are created and what really goes into it. I am super nervous though and feeling overwhelmed with not always being able to code the projects.
